

COVID-19 Updated Service Offerings – Due to High Demand

DriverSource is now offering warehouse assistance, forklift operators, and additional services by request. With our expertise in the recruiting space, with all of these service offerings, we have decided to open these services up to new customers. Previously, these services were only offered to existing customers, as needed, but with an overwhelming outreach for these needs, we are offering these professional services to anyone.

These services are in addition to our current professional CDL/Chauffeur driver solutions to include home daily, touch & no touch freight, floral delivery, door-to-door drop offs & more.

We are also offering reduced rates to help with current circumstances. Reach out to us and let's come up with a pricing plan that will work for your business and your future growth.

All drivers/workers follow CDC protocols, have PPE provided on a regular basis, and are completing a COVID health & safety checklist before the start of each shift.

Getting You Back to Business with.....

- PROFESSIONAL DRIVERS
- WAREHOUSE PERSONNEL
- FORKLIFT OPERATORS
